Hydra Bench — Monthly Flow Survey Assessment

Full available period

Generated 10/11/2026, 7:51:29 AM
Hydra Bench

> **Monthly engineering assessment.** Automated calculations remain preserved separately from engineer-reviewed outcomes. Reviewer comments and overrides belong to individual assessed weeks; calculated scores remain available separately.

Assessment overview

Period

Full available period

Survey context

9 monitor(s) · 3 rain gauge(s) · 3 WAPUG candidate(s) · 2 network-qualified

Monitor assessment

Monitor	Rain gauge	Diameter	Calculated	Reported	Weeks	Events	Override rationale	Engineering comment
FM7413	RG5097	450 mm	Amber	Amber	5	2	Tidal impact noted.	—
FM8356	RG4922	525 mm	Amber	Amber	5	2	—	—
FM8095	RG6324	525 mm	Amber	Amber	5	2	—	—
FM7424	RG5097	1,050 mm	Amber	Amber	5	2	—	—
FM9320	RG4922	600 mm	Amber	Amber	5	2	—	—
FM2830	RG6324	975 mm	Amber	Amber	5	2	—	—
FM2961	RG5097	1,500 mm	Amber	Amber	5	2	—	—
FM8722	RG4922	600 mm	Amber	Amber	5	2	—	—
FM7307	RG6324	1,650 mm	Amber	Amber	5	2	—	—

Rainfall assessment

Gauge	Coverage	Event strikes	Dynamic status	Calculated	Reported
RG5097	97%	0	Operational	Amber	Amber

Gauge	Coverage	Event strikes	Dynamic status	Calculated	Reported
RG4922	97%	0	Operational	Amber	Amber
RG6324	97%	0	Operational	Amber	Amber

WAPUG event suitability

Event	Start	End	Mean depth	Spatial CV	Operational gauges	Network suitability
1	2028-04-16T19:44:00	2028-04-16T21:00:00	33.66 mm	82%	3	Not qualified — spatial CV 82% > 40%
2	2028-04-26T18:34:00	2028-04-26T20:02:00	18.38 mm	7.1%	3	Qualified
3	2028-05-03T01:56:00	2028-05-03T04:36:00	42.45 mm	7.3%	3	Qualified

Volume balance

Week	Network path	Calculated	Reported	Ratio	Likely source	Recommendation
2028-04-09T00:00:00	FM7413 + FM8356 → FM7424	Green	Green	1.341	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-09T00:00:00	FM8095 + FM9320 → FM2830	Green	Green	1.446	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-09T00:00:00	FM7424 + FM2830 → FM2961	Green	Green	1.201	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-09T00:00:00	FM2961 + FM8722 → FM7307	Green	Green	1.153	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-16T00:00:00	FM7413 + FM8356 → FM7424	Green	Green	1.343	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-16T00:00:00	FM8095 + FM9320 → FM2830	Green	Green	1.447	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-16T00:00:00	FM7424 + FM2830 → FM2961	Green	Green	1.2	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-16T00:00:00	FM2961 + FM8722 → FM7307	Green	Green	1.152	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-23T00:00:00	FM7413 + FM8356 → FM7424	Green	Green	1.342	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-23T00:00:00	FM8095 + FM9320 → FM2830	Green	Green	1.446	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-23T00:00:00	FM7424 + FM2830 → FM2961	Green	Green	1.201	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.

Week	Network path	Calculated	Reported	Ratio	Likely source	Recommendation
2028-04-23T00:00:00	FM2961 + FM8722 → FM7307	Green	Green	1.152	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-30T00:00:00	FM7413 + FM8356 → FM7424	Green	Green	1.343	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-30T00:00:00	FM8095 + FM9320 → FM2830	Green	Green	1.447	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-30T00:00:00	FM7424 + FM2830 → FM2961	Green	Green	1.2	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-04-30T00:00:00	FM2961 + FM8722 → FM7307	Green	Green	1.152	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-05-07T00:00:00	FM7413 + FM8356 → FM7424	Green	Green	1.345	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-05-07T00:00:00	FM8095 + FM9320 → FM2830	Green	Green	1.447	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-05-07T00:00:00	FM7424 + FM2830 → FM2961	Green	Green	1.2	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.
2028-05-07T00:00:00	FM2961 + FM8722 → FM7307	Green	Green	1.151	No specific monitor indicated	No measured volume deficit is indicated. A downstream excess may reflect legitimate lateral/unmonitored inflow; investigate only if the magnitude is implausible.

Engineering action register

Area	Subject	Severity	Action / rationale
Monitor	**FM7413 · week ending 2028-04-16**	Amber	Pumping influence noted.
Monitor	**FM7413 · week ending 2028-04-30**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM7413 · week ending 2028-05-07**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM8356 · week ending 2028-04-16**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM8356 · week ending 2028-04-30**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM8356 · week ending 2028-05-07**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM8095 · week ending 2028-04-16**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM8095 · week ending 2028-04-30**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM8095 · week ending 2028-05-07**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM7424 · week ending 2028-04-16**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM7424 · week ending 2028-04-30**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM7424 · week ending 2028-05-07**	Amber	Wet week without sufficient event-linked response in the expected channels.

Area	Subject	Severity	Action / rationale
Monitor	**FM9320 · week ending 2028-04-16**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM9320 · week ending 2028-04-30**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM9320 · week ending 2028-05-07**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM2830 · week ending 2028-04-16**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM2830 · week ending 2028-04-30**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM2830 · week ending 2028-05-07**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM2961 · week ending 2028-04-16**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM2961 · week ending 2028-04-30**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM2961 · week ending 2028-05-07**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM8722 · week ending 2028-04-16**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM8722 · week ending 2028-04-30**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM8722 · week ending 2028-05-07**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM7307 · week ending 2028-04-16**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM7307 · week ending 2028-04-30**	Amber	Wet week without sufficient event-linked response in the expected channels.
Monitor	**FM7307 · week ending 2028-05-07**	Amber	Wet week without sufficient event-linked response in the expected channels.
Rainfall	**RG5097 · week ending 2028-05-07**	Amber	Review coverage or fault evidence
Rainfall	**RG4922 · week ending 2028-05-07**	Amber	Review coverage or fault evidence
Rainfall	**RG6324 · week ending 2028-05-07**	Amber	Review coverage or fault evidence

Audit note

This monthly output is intended as a concise engineering hand-off. Detailed weekly calculations, Event Response evidence, raw gauge evidence, exclusions and source provenance remain available in the workbench/full HTML report.
